

YOUNG Women's Ministry

We are creating and growing a “new thing” in Women’s Ministry. It is a ministry focused specifically upon young women who are post-high to age 35. Growing a new thing is challenging, but definitely worth it. Please join us in this creation and growth. There are several ways you can help support and encourage this ministry –

1. **Prayer** – pray for this new ministry, the leadership, the women who are involved as well as they yet to be involved,
2. **Financial support** – one of the ways that we are nurturing this budding ministry is through retreats. While we don’t want this to become “just a retreat ministry” it is a perfect way to get young women involved. Many of these women are either in college, just starting out in their careers, or raising young families. Finances are tight and scholarships are an added blessings.
3. **Advocate/Mentor** – come alongside this ministry providing support and encouragement. Become an advocate in your region or presbytery. Gather a mailing list of young women in your area and send to us. Share information far and wide in our region/presbytery. We need mentors/advocates.
